Bachelor of Civil Engineering

Introduction
Bachelor of Civil Engineering program is offered to produce graduates who are holistic, accustom science and technology and also innovative. Three main objectives of the program are to produce engineers who are (i) knowledgeable and competent in the field of civil engineering, and have the appropriate skills and attitudes to work in the industry, (ii) creative and innovative, and also sensitive and responsible to the society, cultures and environment, and (iii) capable to work in advanced design and development at national and international levels. It is a 4 year programme which consists of courses that are related to the field of Structural Engineering, Water and Environmental Engineering, Geotechnical and Geological Engineering, Highway and Transportation Engineering, and Project Management. The program requires the students to complete a total of 136 credits in 8 semesters of study. It has been accredited by Engineering Accreditation Council (EAC).

Career Opportunities
Graduates from Bachelor of Civil Engineering program will have vast career opportunities in local companies, and multinational private or government agencies such as Mint Consult, Petronas, Malaysia Marine and Heavy Engineering, RE Consultant, Sepakat Setia Perunding, Titijaya Land Berhad and Kementerian Kerja Raya. Among the position secured by graduates are Construction Engineer, Consultant Engineer, Project Manager, Civil Engineer and Assistant Director. Graduates tracer study showed that the employability of the Bachelor of Civil Engineering program graduates are competitive and high.
Admission Requirements

**Bachelor of Civil Engineering (PK01)**
8 Semesters

Fulfills the University General Requirements and Specific Programme Requirements:

a) A minimum CGPA of 2.80
b) A minimum of Band 3 in the Malaysian University English Test (MUET) OR Credit in English Language subject at SPM level

c) And

| A minimum of Grade B (GP 3.00) in  
• Mathematics T / Further Mathematics T; and  
• Physics | A minimum of Grade B (GP 3.00) in  
• Mathematics / Engineering Mathematics; and  
• Physics/Engineering Physics/Civil Engineering Studies | A Diploma with a minimum CGPA of 2.80 in the appropriate field or other qualification approved by the UPM Senate. |

Curriculum (2016 – 2020):

The component of curriculum studies can be divided into three categories, namely general courses, core courses and elective courses:
